Intro. to Software Systems (2022)

Lab Activity - DOM & Arrow Functions

Task A

Make an HTML file and using Javascript, add a typewriting effect as given in the video `task_a.mp4`

Task B

In addition to the typewriting effect, write a script to now delete the characters one by one and adding new characters from an array as shown in the video `task_b.mp4`

Submission Format

```
rollnumber.zip
|
|-- rollnumber/
|    |
|    |-- index.html
|    |-- script.js
```
